

Draft – Community Involvement Plan

Review and Comments by Kathy Leinenkugel for Dr. Adi Pour
April 5, 2004

Pg 4

- P4: I thought commercial properties were not part of the site
- P5: ZIP Codes in site – 68112 and 68104 are not in the current boundaries (Ames to L St and 45th to the river).

Pg 7

- P1: sentence “the county surrounding the Omaha MSA...” - should this read “counties” since the MSA covers more than one county?
- P 3.3: the city has more than 33 Neighborhood Associations – closer to 200 (see City of Omaha web site)

Pg 8

- Under the list of stakeholders – Indian Chicano Health Center is now called One World Community Health – a medical clinic. This should not be confused with the Chicano Awareness Center, which is a community resource center.
- P 3.5: Omaha Star newspaper widely read in North Omaha by the African American community. Channel 22 is only available for community members with Cox Cable subscriptions, which is also the channel/station where Frank Brown’s program is aired.

Pg 9

- Six task force groups of LSOC – not sure how many are active currently
- LSOC Hour is no longer called that (at least to my observation) – listed as People to People and provides other information to the community as well as information about lead issues and the Superfund process
- The list of availability sessions does not show the limited number of community people who were in attendance (or that the same people often were at all the meetings) so using these meetings as the basis for decision-making may not adequately represent the community. However, information taken from phone calls should help give reliable overview of community concerns.

Pg 12

- P 4.3.5 “The City health department.....” Is there a City Health Dept.?

Pg 16

- P 1(5.7) ...place a paid display adhow big, where in paper – how likely is the public to see this? This has been a problem for the promotion of the availability sessions as well – I have had trouble finding the notice even when I knew it was going to be in the paper and I was looking for it.
- 5.8, 5.9, 5.10, 5.12: when email contact info has been provided, it could be utilized over the hard copy mailing
- 5.10: it would be nice if the agencies could have advance notice of public notices/press releases so that we are ready to respond to questions generated by media stories/coverage

Pg 17

- Format could be better: bottom of page to top of page 18 – don’t cut table in the middle of a comment (#7)
- #7 use email when known – faster, cheaper, and easier for your established contacts to network to their contacts, etc.

Pg 22

- Kathy Leinenkugel's title at the DCHD is Lead Program Coordinator
